

HOW FINANCIALLY RESILIENT ARE YOU?

SAGECents is a digital wellness platform made specifically for LGBT elders to increase financial stability and reduce economic stress.

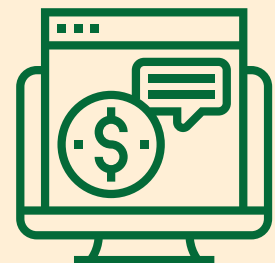

Like a dedicated coach, this program can help you become more confident with your finances and aid in achieving your financial goals.

Understanding and controlling your finances is more important than ever, especially for LGBTQ+ elders. Access to a number of services and opportunities for LGBTQ+ elders is limited, making it more difficult to navigate economic uncertainty and fortify our community's financial resilience.

SAGECents is a free and easy way to access the crucial information, resources, and tools needed to craft workable strategies for financial health and sustainability.
